

What do CFEs have to say about It?

Why is it important to CFEs? to accountants? to auditors? To managers?

Why should it be important to YOU?

The Saskatchewan Association of Certified Fraud Examiners (CFEs) invites you to a noon hour luncheon for a discussion about how *risk identification*, *fraud risk*, and *enterprise risk* all tie together. If you ever wondered about evaluating risk in your company, your project, or your file, then this session will be for you.

We are lucky to have this discussion lead by William (Bill) Hill, a Principal with Vitrus Group here in Regina. Mr. Hill is well qualified to speak on this issue being a Fellow with the Chartered Accountants, as well as a Certified Management Accountant.

Feel free to bring others in your organization who may find this topic of interest. All interested acquaintances are welcome.

Tuesday, June 15
12 Noon

Saskatchewan Hotel
\$20/person

An authorized training initiative of the Saskatchewan Association of Certified Fraud Examiners (ACFEs)
